

FOREIGN BROADCAST INFORMATION SERVICE  
HONG KONG BUREAU

MHK-5016  
2 September 1985

MEMORANDUM FOR: Director, Foreign Broadcast Information Service  
THROUGH : Chief, Operations Group  
SUBJECT : Monthly Report--Hong Kong Bureau--August 1985

I. GENERAL

August was an unusually dreary month, with incessant rain. Obviously not the kind of weather many congressmen and their staff had banked on when scheduling visits here. The city was inundated with congressional visitors, the most notable being Senator Dole and his wife, Senator Long, and Congressmen Rodino and Gibbons. At last count there had been something like 25 here in a 3-week period. Nearly all claimed they were here to discuss trade issues, especially the controversial Jenkins Bill on foreign textiles. ABC, however, saw all the visits in a different light. They had a film team in town to do a feature on congressional junkets, and kept seeking information from the Consulate on who was here and who was coming next. Told of this at the Country Team meeting, Consul General Levin remarked that he was so tired of it all that "we ought to give them as much help as possible." He of course went on to acknowledge that that might be a bad political decision. Fortunately, the month was not all congressmen and rain, and there were a few light moments. A young, disgruntled American tourist proceeded one afternoon into the street immediately in front of the Consulate and, in a show of protest over something, dropped his pants and revealed all. Someone suggested that perhaps he just wanted the world to see that his designer jeans were made in South Carolina. The police didn't bother to check before he was hauled away.

II. OPERATIONS

A. Monitorial/Editorial

1. The PRC-owned Hong Kong paper WEN WEI PO confirmed on the 28th that the Chinese Communist Party conference of delegates will take place in September. According to the paper, the conference will be held September 13-25. The agenda will include election of new Central Committee members, and a party plenum will then be held to decide on membership in the Politburo and Secretariat.

2. It has been 2 months since RENMIN RIBAO ceased being published in Hong Kong, replaced by the Overseas Edition. Receipt time of the regular edition, which we now obtain via air mail from Beijing, varies from 2 days to a week, with an average of around 4 days. To date we have found no faster means of getting the paper and it does not appear to be available through any local news vendors.

STAT

3. Coverage of BEIJING REVIEW was transferred to Okinawa effective 19 August. They receive the weekly several days after publication, while receipt time here has been 7-10 days.

STAT  
STAT  
STAT

4. Okinawa monitor [ ] TDYed at the bureau for the entire month, filling in while Tagalog monitor [ ] was on annual leave in the U.S. and Canada. This was [ ] first opportunity to work with Tagalog broadcasts since joining FBIS last spring. She did a commendable job considering the generally poor reception of many of the broadcasts out of Manila. In an effort to improve our Philippine coverage, the bureau chief will visit Manila to look into the possibility of feeding broadcasts via commercial telephone.

5. In response to a MOD request, effective 26 August the bureau started automatically forwarding to Headquarters all video tapes on which VSLs were prepared.

#### B. Communications

A circuit upgrade between Clark and Guam in late July appears to have improved the bureau's communications. Requests for refills, which had been averaging more than three a day before the rehome, have now fallen off to less than two a day.

#### C. Lateral Services

The USIS office here requested bureau assistance in obtaining copies of speeches by Soviet leader Aliyev and Kim Il-song at recent ceremonies in Pyongyang marking the 40th anniversary of the liberation of Korea. London and Seoul bureaus refiled the desired items and these were passed onto USIS, with their voicing gratitude for the "fast service."

#### D. Technical

1. Our Extel ASR's have been requiring more frequent repairs and maintenance to keep all units operable. C/FEB has concurred in a proposal that we lease an extra ASR from Cable & Wireless, as a means of keeping more units on line until we receive the expected IBM PC with tape cutter later this year. We have not done this yet, however, pending further evaluation of our maintenance efforts. It appears that these aging ASRs, especially the older units which are in use here, need to be replaced in the not too distant future.

2. The local Extel rep informed the bureau chief that Extel in Chicago had offered to replace two of our new Comscribe printers. He said Extel had found that some of these printers have defective chips. Following further discussions with Extel and FEB, however, the solution seemed to be to just replace the defective chips. We are awaiting the final outcome of these talks. In the meantime, the problems we experienced initially with these new printers did not continue in August.

3. The bureau's microwave system was hit by lightning during a severe thunderstorm on the 19th. There was no major damage to the system, however, as the isolation transformer, which was installed to protect against lightning, served its purpose. The system was back in operation in less than 3 hours and no radio coverage was lost.

### III. ADMINISTRATION

#### A. Personnel

STAT 1. New teletypists [ ]  
EODed on 13 and 19 August respectively. This brings the bureau's teletype section T/O back to normal following two resignations this summer.

STAT 2. Associate editor [ ] resigned effective 31 August. A replacement has been selected and local medical and security clearances are now being arranged.

STAT 3. Medical problems sidelined three of our foreign national  
STAT employees during the month. Monitor supervisor [ ] and senior  
STAT monitor [ ] both had major surgery, but are recovering. [ ] is  
STAT expected to return to duty on 3 September, while [ ] continues to  
convalesce at home. Monitor [ ] returned to duty in late  
August following nearly a month's absence due to an undiagnosed  
illness.

#### B. Buildings and Grounds

Contracts have been let on two projects which are expected to be completed in September: installation of two armor core security doors on the fire escape stairway exits and installation of cable protective conduit at Mt. Butler and on the 14th floor of St. John's Building. The conduit will house the cabling for our future microwave backup circuit.

### IV. VISITS

STAT A. Okinawa Bureau monitor [ ] on TDY 2 Aug-2 Sep.

STAT B. [ ] DC/Research Branch, AG, for orientation,  
9-13 and 22 Aug.

STAT [ ]  
Bureau Chief
